ARCHERY PUBLICATIONS.

HOW TO TRAIN IN ARCHERY, being a complete study of the York Round, comprising an exhaustive manual of long-range bow shooting for the use of those archers who wish to become contestants at the Grand National Association Meetings; by Maurice Thompson, President of the Grand National Archery Association of the United States, author of the "*Witchery of Archery*," etc., and Will H. Thompson, Master of the "Wabash Merry Bowmen." 76 pages, 32mo., cloth.....price, 50c.

Book of Instruction in Archery; also, Constitution and Rules of the National Association..... 10c.

Rules for Lawn Tennis...... 10c.

"The Witchery of Archery," by Hon. Maurice Thompson; cloth.....$1.50

HOW TO TRAIN IN ARCHERY.—Revised.

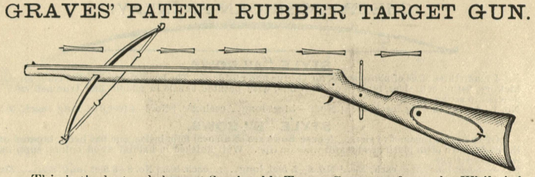
One of the most prominent archers of America says, concerning the new edition of this valuable work: "The chapter on aiming gives every phase of the subject in the clearest possible light. It is more direct and clear than Ford's essay on aiming, and more thorough than Palairet's. It contains the whole theory of training, and a full outline history of the best shooting of England and America. It will be a text book as long as archery is practiced in this country."

FORD'S THEORY—By D. V. R. Manley.

The most complete work on archery published. Is endorsed by all the leading archers of America and Great Britain.

Price, post-paid.....$1 50

GRAVES' PATENT RUBBER TARGET GUN.



This is the best and cheapest Serviceable Target Gun manufactured. While it is peculiarly adapted to Target practice in the Parlor or on the Lawn, it is still powerful enough for hunting squirrels and small game in the woods. It shoots almost as accurately as a Rifle, and with a little practice one can shoot quickly, not aiming through the sight, and can excel the best of Archers at any range.

It is so constructed that there is no recoil, which makes it peculiarly adapted for ladies and children.

Aside from its merits for Target shooting, it is really excellent for hunting small game, such as squirrels, pigeons, and other birds; killing rats and driving away cats, etc. As it makes no report the game will not be alarmed should the first arrow or ball fail to bring it down. Thousands of these guns have been sold, and give perfect satisfaction.

The Hon. Maurice Thompson, Author of that delightful book "The Witchery of Archery," writes under date of July 16, 1879:

"I know of one bright-eyed lad whose lot is, for the time, a glorious one on account of your gun. Sincerely, I think this gun of yours the *best and most effectual Target and Hunting weapon ever made for boys.*"

The Indiana Farmer, Indianapolis, says, "We have received one of these guns from the manufacturer, and find it not only to be a nice implement for target practice, but of sufficient force and accuracy to be serviceable for killing rats, birds, etc. It is much superior to the bow and arrow for these purposes. With one of these guns one could slay scores of black birds, etc., and save bushels of grain by doing so."

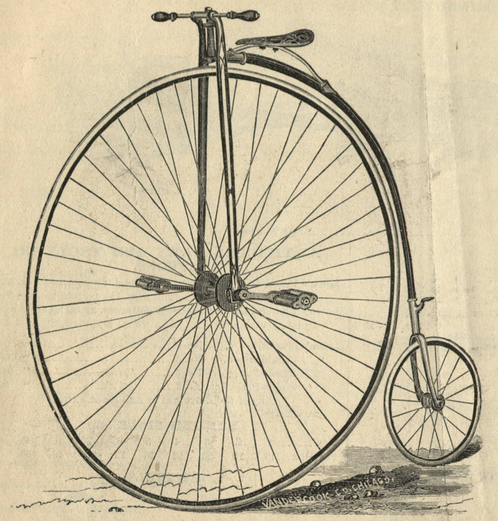
BICYCLES AND VELOCIPEDES.



THE WILKINSON BICYCLE.

I make four sizes of the above machine. Wheels have STEEL WIRE SPOKES, with U rims of Bessemer Steel, and RUBBER TIRES. Front forks are made of solid malleable iron, with steel handle rods, hollow tapered back bone, malleable iron hub and solid steel axle spring seat, with leather saddle. No brakes; all main bearings are ADJUSTABLE. SLOTTED CRANK and Rubber covered Treadles.

No.	Diameter of Front Wheel.	Diameter of Hind Wheel.	Length of Leg inside measurement to Sole of Foot.	WEIGHT.	PRICE.
13	28 in.	14 in.	23 in.	18 lbs.	$12 50 each

15	36	18	28	36	25 00
16	42	18	30	38	35 00

WITHOUT RUBBER TIRES.—I also make four sizes, the same as above, with FLAT IRON TIRES, instead of RUBBER, at much lower prices. These are without doubt the best machines of the kind made.

No.	Diameter of Front Wheel.	Diameter of Hind Wheel.	Length of leg inside measurement to Sole of Foot.	WEIGHT.	PRICE.
9	28 in.	14 in.	23 in.	18 lbs.	$ 7 00 each

11	36	18	28	36	15 00
12	42	18	30	38	20 00

N. B.—Of the above two styles of machines, I make but four sizes. The diameter of the largest wheel is 42 inches.

PATENT VELOCIPEDE.

This style of Velocipede is the best made. There has never been an article introduced which gave such uniform satisfaction. All the iron parts are brightly tinned. The bearings are of selected hardwood, and handsomely polished. The axles are made of Swedish iron; wheels have tapered spokes and heavy oval tires. It is the strongest yet most elegant Velocipede made.

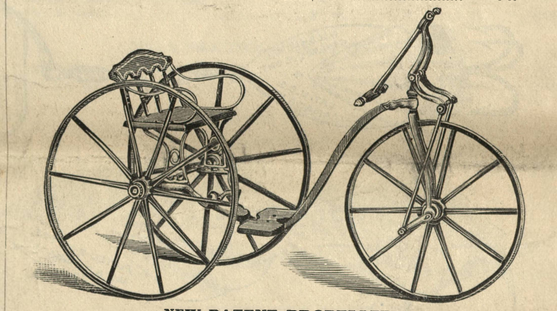
GIRLS' NEW PATENT VELOCIPEDE.

PATENTED JUNE 4, 1878.

In order to meet the great demand for Girls' Velocipedes, I have constructed several styles. Of them all I think the above cut represents the most desirable. It is constructed upon a very simple but effective principle, the motive power being derived from a combination of a lever and crank movement, which does away with the treadle motion, and allows the velocipede to be propelled and guided at the same time, giving an easy and graceful movement to the body, and being conducive to health and strength.

No. 1 has 20 in. front wheel, and 16 in. hind wheels.....each, $6 50
No. 2 " 24 " " " 20 " " " 7 50
No. 3 " 28 " " " 24 " " " 9 00

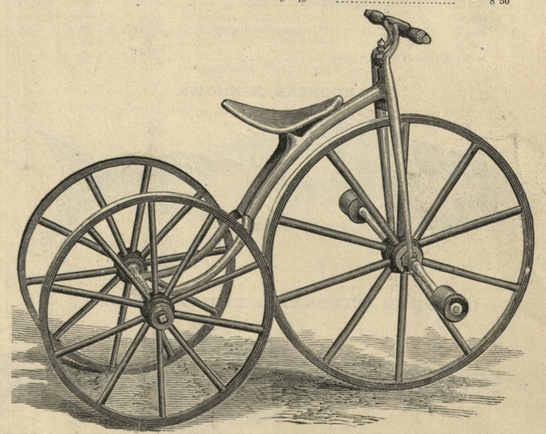


NEW PATENT PROPELLER.

PATENTED JUNE 4, 1878.

This new and practical machine is intended for *Boys* and *Girls* of ages from 5 to 10 years. The motive power is the same as my Girls' Velocipede. A comfortable seat placed between the hind wheels prevents this propeller from tipping over, thereby affording perfect security and splendid exercise for both muscles and chest. I make two sizes:

No. 1 has 20 in. wheels, intended for children from 5 to 8 years.....each, $7 50
No. 2 " 24 " " " " " 9 " 10 " " " 8 50

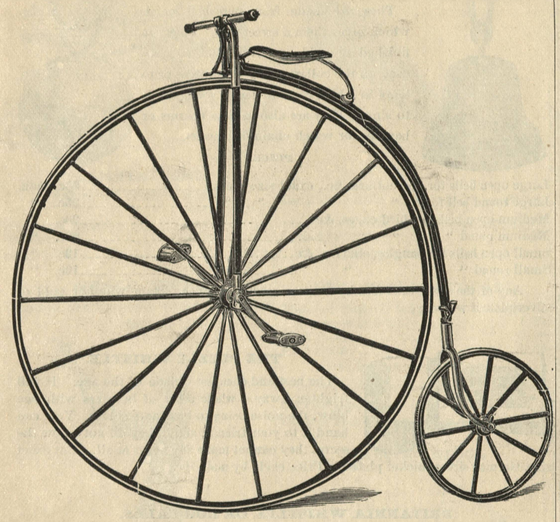


IRON VELOCIPEDE.

In addition to the Patent Velocipede, I have four sizes of this combination. With exception of wheels, the whole running gear is made of malleable iron, and brightly tinned. They are very showy and elegantly shaped, also cheaper in proportion to size.

No. 10, 16 in. front wheel, and 12 in. hind wheels.....each, $4 00
No. 20, 20 " " 16 " " " 5 00
No. 30, 24 " " 20 " " " 6 00
No. 40, 28 " " 25 " " " 7 00

BICYCLES AND SUNDRIES.



OTTO BICYCLE.

The celebrated Otto Bicycle has given universal satisfaction wherever shown, and is unsurpassed for elegance and taste, combined with great durability. As shown by the above cut, the seat is placed almost directly over the center of the front wheel, by which arrangement a much larger wheel can be ridden, thus giving more speed by less power and easier movement.

My Nos. 1 and 2 are adapted to boys' use. All connections are of iron and steel, tinned and painted in high colors.

Nos. 3 and 4 are adapted to youths of 15 to 20 years, but are *fully strong* enough for men's use. The wheels are the best quality of hand shaved spokes and heavy welded tires. All connections of malleable iron and steel castings, well fitted and handsomely finished.

Nos. 5, 6, 7 and 8 are made for adults. They are, in durability, workmanship and finish, equal to any English Steel Bicycle; can stand 500 lbs. weight, if necessary, and are guaranteed in all parts.

In ordering Bicycles, &c., state plainly the **No. and Style of the Machine wanted**, and how you will have it shipped. I do not like to send goods C. O. D unless enough money is sent to pay the charges on the goods both ways. This is to insure me against loss should the goods not be taken from the Express Office for some cause or other. The money advanced in such instances is deducted from the amount of the C. O. D. bill. Should you want to know the **Freight or Express Charges** on goods to your place, enquire at the Freight or Express Office in your town. The agent can tell you.

BICYCLE SUNDRIES.

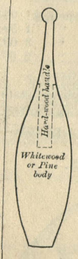
INDIAN CLUBS.

In calling your attention to my Indian Clubs, I would ask you to observe that their style, shape and finish is not *equalled* by any other make in the market. I manufacture them at my own factory, and allow none but the *best seasoned* wood to be used in their construction. I have, therefore, no "grade two" (or second quality), and offer none but *first quality* clubs for sale, and these I place at a price so moderate as to be within reach of all. My clubs are in extensive use in this city and vicinity, and are fully endorsed by Prof. C. O. Duplessis, of the Chicago Athenæum Gymnasium, also by Mr. Geo. H. Benedict (who uses them), Champion Club Swinger of the North-West, and others.

In addition to my *New Model Clubs* on page 15 of this list, I manufacture a club known as



WILKINSON'S PROFESSIONAL INDIAN CLUB

(SEE CUT.)

These clubs are made from whitewood, with hard wood handles, which makes them strong for fancy swinging or juggling, and where they are liable to be thrown about, they are practically unbreakable.

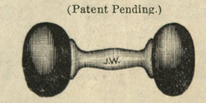
WILKINSON'S NEW MODEL IRON DUMB BELL.

(Patent Pending.)



After many experiments I have perfected the most desirable style of *DUMB BELLS* yet made. They consist of an iron bell nicely painted with a strong wooden handle running completely through each end. This makes a much stronger article than the regular iron dumb bell, and as may be readily perceived, much pleasanter to handle; the wood being of a fine smooth finish, soft and easy to the hands, and particularly in cold weather when iron is so disagreeable to handle. I make at present the following weights:

GAMES AND HOME AMUSEMENTS FOR THE PARLOR.

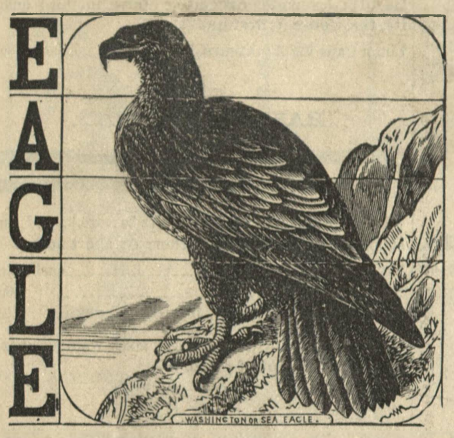
SLICED ANIMALS.

A large box, containing pictures of 15 animals cut up; each slice of the animal containing a letter of part of the name, so that as fast as the picture is put together the name of the animal is spelled. The box cover is ornamented with a most attractive picture label, printed in five different colors. The best dissected picture puzzle for children ever published.

The box contains pictures of the following 15 animals, viz.: Horse, Cow, Rat, Lion, Zebra, Dog, Goat, Fox, Camel, Cat, Sheep, Deer, Giraffe, Bear, Buffalo.

Price.....50 cents.

If to go by mail, send 15 cents for postage.



SLICED BIRDS.

The pictures are printed in the highest colors, as far as possible imitating the natural colors of the birds themselves, and are very attractive. All children are attracted to pictures of animals and birds, and these dissected puzzles can not fail to amuse them when all other puzzles are laid aside. The box contains pictures of the following 14 birds, viz.: Parrot, Finch, Swan, Crane, Pigeon, Avocet, Duck, Jay, Oriole, Quail, Turkey, Peacock, Eagle, Hawk.

Price.....50 cts.

If to go by mail, send 15c for postage.

SLICED OBJECTS.

The puzzle is gotten up finer than either of the others, and I venture to say that, in Sliced Animals, Sliced Birds, and Sliced Objects, I have given more for less money than has ever been given in the way of a dissected Picture Puzzle.

The box contains the following 12 objects:

THE CHECKERED GAME OF LIFE.

One of the oldest and best juvenile games. This game was among the first that served to inaugurate the introduction of moral and instructive amusements into our homes, and the steady increase in the use of such amusements in all intelligent families of the country during the past 15 years, is due largely to the value of this, and a few other equally good games, that originally broke down an unjust prejudice against all games. Price, each, $1.

Or can go by mail for 15 cents extra.

THE LITTLE BUTTERCUP TEA SET.

The Most Laughable Thing on Earth.

A tempestuously mirthful game for any number of players. Two-thirds of a minute is all the time required for anyone, young or old, to learn this pastime, and when learned and played the shouts of laughter produced are "prodigious." Price, post-paid.....50 cts.

MIXED PICKLES.

A very merry game for one player or three. This may be termed a merry solitaire; and though no skill is required in playing it, it serves as an amusing and constantly varying pastime for one or three persons. Any number may, at the same time, act as lookers-on, or listeners, and may be interested in its developments and convulsed with laughter over its results. Price, post-paid.....30 cts.
